Special Issue
Statistical Inference under Inequality Constraints

Edited by Richard L. Dykstra, Tim Robertson and Mervyn J. Silvapulle

Volume 107, Numbers 1–2

Preface 1

An appraisal of some aspects of statistical inference under inequality constraints *P.K. Sen and M.J. Silvapulle* 3

The analysis of contingency tables under inequality constraints *A. Agresti and B.A. Coull* 45

The one-way layout with ordered parameters: a survey of advances since 1988 *C.P. Dobler* 75

Inference for the model of several treatments and a control *A. Cohen and H.B. Sackrowitz* 89

Powers of some one-sided multivariate tests with the population covariance matrix known up to a multiplicative constant *S. Chongcharoen, B. Singh and F.T. Wright* 103

Bootstrap adjusted estimators in a restricted setting *C. Rueda, J.A. Menéndez and B. Salvador* 123

Max–min multiple comparison procedure for isotonic dose–response curves *L. Liu, C.-I.C. Lee and J. Peng* 133

Testing for ordered means in a variation of the normal mixture model *D. Nettleton* 143

A class of conditional tests for a multivariate one-sided alternative *M.D. Perlman and L. Wu* 155

A defense of the likelihood ratio test for one-sided and order-restricted alternatives *M.D. Perlman and L. Wu* 173

More powerful tests for the sign testing problem *K.G. Saikali and R.L. Berger* 187

Construction of uniformly more powerful tests for hypotheses about linear inequalities *M.P. McDermott and Y. Wang* 207

Min and max scorings for two sample partially ordered categorical data *A.R. Sampson and H. Singh* 219

The bias of linear rank tests when testing for stochastic order in ordered categorical data *V.W. Berger and A. Ivanova* 237

Order restricted inference for hypotheses concerning qualitative dispersion *R.L. Dykstra, J.B. Lang, M. Oh and T. Robertson* 249

Chi-squared tests for and against uniform stochastic ordering on multinomial parameters *C.-I.C. Lee and X. Yan* 267

Limiting distribution for monotone median regression *Y. Wang and J. Huang* 281
Testing of monotonicity in parametric regression models
E. Doveh, A. Shapiro and P.D. Feigin 289
Tests against inequality constraints in semiparametric models
M.J. Silvapulle, P. Silvapulle and I.V. Basawa 307
Estimation of two ordered mean residual life functions
X. Hu, S.C. Kochar, H. Mukerjee and F.J. Samaniego 321
A note on estimating a partly linear model under monotonicity constraints
J. Huang 343
A note on estimating a non-increasing density in the presence of selection bias *H.E. Barmi and P.I. Nelson* 353
On the estimation of integral *f*-squared *B.M. Brown and T.P. Hettmansperger* 365
Author Index Volume 107 377
